

General Dynamics Trademark List

A trademark can be a word, phrase, symbol, or design that distinguishes the source of the goods or services. Also, as trade dress, it can be the appearance of a product or its packaging, including size, shape, color, texture, graphics, and appearance (e.g, retail store or website).

The following is a comprehensive list of General Dynamics' trademarks and service marks.

When using the marks in publications that will be distributed only in the United States, include the appropriate TM, SM, or ® symbol on first use. For publications that will be distributed outside the United States, do not include trademark symbols. Instead use the appropriate trademark attribution notice, for example: EXTREMEX & Design is a trademark of General Dynamics Global Imaging Technologies, Inc., registered in the U.S.
